Applicant : Hanna Albert Awad

Filing Date : 06/21/2001

Application Number : 09/886,221

Title : " Sink electricity, generation, computers on three digit

(0,1,2), operation of machinery

Hanna Albert Awad

A handwritten signature in black ink, appearing to be "Hanna", written over a horizontal line.

Date 06/28/2003

I was asked by the examiner and I responded by express mail.

The answer was that I failed to answer correctly.

The question was : " how the generator works ? "

The answer was :

" The stator will be turned by a motor which results in a free moving rotor and the energy will be dumped and a sink current will be extracted from the rotor.

A battery of sink electricity should be connected to the generator as a starting sink current ".
